

Econsap

COMPANY PROFILE

Connected transformation for project and asset-intensive enterprises.

Econsap is an engineering, construction, operations, and SAP consulting business helping leaders connect strategy, programmes, enterprise systems, project controls, and operational performance.

From transformation advisory and programme leadership to SAP, automation, analytics, and sustained operational improvement.

Business context first. Technology with purpose.

We help organizations turn complex transformation priorities into governed programmes and practical operating improvements. Our work aligns people, processes, information, platforms, and partners around measurable business outcomes.

SERVICE PORTFOLIO

Advisory. Leadership. Transformation.

01 SAP Transformation Advisory Define a business-led transformation path with clear choices, outcomes, ownership, and governance. ✓ S/4HANA roadmap ✓ ERP strategy ✓ Transformation governance	02 Programme Leadership Bring independent control, delivery discipline, and decision clarity to complex ERP programmes. ✓ ERP PMO setup ✓ Recovery of delayed SAP programmes ✓ Vendor governance	03 Digital Transformation Modernize operations through practical AI, automation, and operating-model redesign. ✓ AI adoption roadmap ✓ Process automation ✓ Operating model redesign
